Project 5 Part 3 Questions

Part 1

1. What is your collection, and what makes the objects a collection?

- My collection is a collection of sneakers from various brands. The objects are a collection because while they are all sneakers, they each have their own unique characteristics and aspects of them that distinguish them from one another.

2. Who began the collection? Why? How?

- I began this collection. Although it is not real, it is a collection of all my favorite sneakers and sneakers I would want myself. I

3. What makes this collection interesting?

- This collection is interesting because it will include a wide variety of styles. I think that when some people hear sneakers, they only think of basketball shoes. However, this collection will show the depth of style that exists in sneakers.

4. What is an attribute(s) of the collection you could organize it by?

- I plan to organize the collection by brands. Within each brand, I could also organize the sneakers by year.
